DETAILED ACTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 2-12, 16-27, drawn to a process for producing chlorous acid, classified in class 423, subclass 472+.
- II. Claims 28-29, 38-39, drawn to a process for purifying chlorous acid, classified in class 210, subclass 679+.
- III. Claims 30-31, 40-41, drawn to a process for purifying chlorine dioxide, classified in class 423, subclass 477+.
- IV. Claims 32-34, drawn to a process for substituting desirable ions for undesirable ions in a chlorous acid, classified in class 423, subclass 266+.
- V. Claims 35-37, drawn to substituting desirable ions for undesirable ions in a chlorine dioxide solution, classified in class 423, subclass 266+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II and III and IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions and different effect, while Invention I is to produce chlorous acid, the Invention II is to purifying chlorous acid, the Invention III is to purifying chlorine dioxide, Invention IV is to

substituting ions in chlorous acid and Invention V is to substituting ions in chlorine dioxide solution.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
